OVERVIEW OF THE PROJECT

Project Name: Tribute to Doctors

Team Members: Awadhesh Kumar

Pavan Kalyan y

Sagar Shridhar Potdar

Zuhaib Mohammed

This project is based on Web Development And its Applications. The main objective of this project is to learn the implementation of HTML and. CSS. The basic webpage of this project is created using HTML and styling of the webpage is done using CSS.

This website is about our fallen heroes who lost their lives while serving nation in the pandemic situation, we would like to take a minute to tribute the doctors

It's been around one-and-a-half years since the Covid pandemic engulfed the whole country and no one knows when the virus will fade away. In these torrid times, our doctors have been serving day and night, like the soldiers who guard our borders, to protect millions of lives.

From being witnesses to so many deaths around them to working tirelessly without a break to getting themselves self-quarantined due to the fear of taking the virus home, the doctors were driven to the breaking point many a times during the pandemic. It has been an emotionally and physically exhausting journey for doctors – both at the personal and professional level.

ABOUT Tribute to Doctors website

The tribute to doctors website is a simple website developed and designed using HTML, CSS and JavaScript(a little). It consists of home page, news page, about and the gallery page which gives an information about the doctors and their service in it.

I would like to thank **ICS** company for giving me such an opportunity to work on this project, which helped in enhancing my knowledge in HTML and CSS.
